PROFILE

I'm Zara – a senior front-end developer with a design-minded approach to building elegant, intuitive web interfaces.

With a strong foundation in JavaScript, modern frameworks, and responsive design, I specialize in crafting user experiences that are not only performant and accessible, but also visually polished and delightful to interact with.

WORK EXPERIENCE

- Visible One** 2022 - 2023, 2024 - PRESENT
Senior Developer
 - Developed, optimized, and maintained web site and web application interfaces using HTML, CSS, JavaScript, Wordpress(ACF), Gulp Js, React Js and Angular. Built responsive and visually appealing UIs that provided seamless experiences across devices and browsers.
 - Collaborated with UI/UX designers and backend engineers to transform mockups and wireframes into fully functional, user-centered web pages
- Abank** 2023 - .2024
Senior FrontEnd Software Developer
 - Developed and optimized a high-performance, secure web application for banking services using React.js and Next.js, focusing on a smooth, responsive user experience across devices.
 - Integrated with RESTful for dynamic data handling and optimized server performance using Next.js's server-side rendering and code-splitting capabilities.
- Idea Vision** 2019 - 2022
FrontEnd Web Application Developer
 - Developed and maintained the frontend of POS, inventory, and hospital management web applications using React.js and AngularJS, focusing on intuitive design, responsive layouts, and high performance.
